

HENRY JOHN

Well, it's election time again, I've really enjoyed the last three years of service to the tribe. During my time here I believe that I've taken an active role in the many different entities and divisions of the tribe, natural resources, gaming, M.V.V., admin, and will always work hard and show up for work.

There are some difficult decisions ahead to be made, such as debt payments, government structures to be built, casino to be built on I-5, per-caps, they all have to fit into the revenue that is generated each year. So, thank you for the last few years, the tribe is always first.

Henry John
