

# WILLIAM MANZANARES IV

We have faced many challenges and overcome many obstacles as a tribe however we need to stand together for the overall survival of our tribe. We need strong leaders who will fight for our Sovereignty. Over the years bits and pieces of our tribes sovereignty has been given up. I am running so that we don't lose what is left of our sovereignty. I will fight everyday for the betterment of our entire tribe. I will also work hard on opening up communication lines between all tribal entities. We must be on the same page to work more effectively as a people when dealing with the cities and other governments. We get stronger as a people if we all work together for the same goal. **Every Tribal Member who is willing to work hard will get a job!**

This can be accomplished by expanding on our economic developments which will create more jobs. Providing education incentives and on the job training incentives by giving guaranteed job placement upon completion of such requirements.

I currently serve on the Trust Board, Fireworks and Planning Commissions. I worked at the Emerald Queen Casino and currently operate my own tribal business. I know what it takes to start a project and see it through until the end. I appreciate your time for reading my letter.

Sincerely,

William Manzanares IV
