

LINDA EARL

My name is Linda Earl and I am the daughter of Alma Satiacum-Earl and Joseph Earl, the third of five children. God has blessed me with four sons, James Richards of Anchorage, Alaska, Chester Earl and Curtis Nix, both of Tacoma and Nicky Lee Nix, Deceased and four grandchildren, Elise, LaVina, Joseph and Linda Marie.

The Puyallup Tribe has been my employer for over twenty-five years, the last eleven working in Tribal Gaming, I am a member of the Full Circle of the Puyallup Nation because I believe in its mission statement which state that we are "...committed to traditional values, spiritual teaching, and the health and wellness of our people...By bringing our community together, enlisting our elders, and nurturing our youth, we will once again achieve a strong, united and balanced tribal community for years to come."

The future for our Puyallup people is very bright. I see many positive changes in store for our Tribe and would like to bring my leadership abilities to making those changes reality. I am running for Tribal Council for the second year in a row which I hope will open the eyes of our members to see that we need to have a voice on making the right choices. Give the members the right to vote on some of the major things that is happening in our future.

The future for our Puyallup people is very bright. I see many positive changes in store for our Tribe and would like to bring my leadership abilities to make sure every member has their right to be able to voice themselves. I am running for Tribal Council and I am asking for your Support this year. If elected I want the membership to know that these are just a few of the positive changes I will work for:

1. Restructuring of the Puyallup Tribal Clinic. Making sure the membership is seen in a timely manner. Not having to do DSHS papers everytime we need to see a specialist. Make sure referrals completed correctly, my concern is that outside referrals are being turned away due to non payment by the tribe.
2. Improve our natural resources i.e. commercial diving and fishing.
3. Moving ahead with the removal of the tent at the 1-5 casino and oversee the building of the casino we were promised years ago.
4. Let the members voice the changes they want by ballots.

The list can go on and on lets just make it the change.

Vote on Changes

Vote on Linda Earl come April. You will not be disappointed
